

PET LICENSE APPLICATION/RENEWAL FORM

Thousands of animals find their way into Maricopa County care centers each year without any form of identification. Unfortunately, without identification we are unable to reunite them with their families. Purchasing a dog license will ensure your special companion can be returned home quickly and safely.

In Maricopa County all dogs over the age of four months are required by law to be licensed and vaccinated against rabies. Application for license must be made within 15 days of vaccination. Residents new to Maricopa County and new dog owners must purchase a dog license within 30 days. A penalty fee will be assessed for late applications. **First time license applications must include proof of rabies vaccination and proof of sterilization.** The term of the license is based on the month and day of the most current rabies vaccination record and is valid for one calendar year.

*Recognizing how important your cat is to your family, Animal Care & Control is pleased to provide voluntary cat licensing. We encourage you to take advantage of this program to ensure the safety of your pet. See license fees below.
